This is an incredible book that goes where no other has and promises to be both educational and aesthetically pleasing to anyone that picks it up. A must have. --crossfire.com, November 2008 Présentation de l'éditeur

This living history of the graffiti movement reproduces selections from the actual black books that graffiti artists use to perfect and share their work. Before it hits the wall, graffiti is often planned out in a black book - a common artist's sketchbook sometimes called a piece book piece being short for masterpiece. Well-worn and dog-eared, these books are used to develop and trade ideas with other graffiti writers, and they may end up being passed along from artist to artist, becoming unique records of creative expression. Piecebook: The Secret Drawings of Graffiti Writers chronicles the evolution of graffiti via images that weren't intended for everyday people to see, focusing on the works of New York City writers active from 1970s until the mid-1980s. Bold works from graffiti history's most important sources or seeds - Zephyr, Dondi, Daze, CRASH, Lady Pink, T-Kid, CAP, and Ghost, among others - represent a dizzying array of techniques and styles.
